UNIVERSITY OF MICHIGAN

Курсы по дисциплине "4"

Web Application Technologies and Django

Building Web Applications in Django

Django Features and Libraries

Using JavaScript, JQuery, and JSON in Django

03.06.2022

Кирилл Сергеевич Максимец

Учащийся успешно прошел онлайн-специализацию без права на зачетные единицы

Django for Everybody

This specialization introduced Python programmers to building web sites using the Django library. Across the four courses, students learned HTML, CSS, SQL, Django, JavaScript, jQuery and JSON web services. Students built online web sites using Django that were graded throughout the four courses.. This series provides excellent preparation for learning other ways to build web applications using technologies like PHP, Flask or Ruby on Rails.

Charles R. Severance,
Clinical Professor of
Information, School of
